

PRATICAL • ECO FRIENDLY

ADVANTAGES :

EASY AND ECONOMICAL INSTALLATION :

- Lightweight
- Easy to transport and install
- Easy to handle even in restricted installation conditions
- Quick and easy installation at an affordable cost

DURABLE AND MAINTENANCE-FREE

- Resistant to corrosion and rust
- Reusable

VARIABLE CAPACITY

- Range of products ranging from 2 000 to 40 000 gallons
- Easy installation of multiple tanks for water needs in large quantities

Water storage tanks
RAINWATER

DID YOU KNOW THAT ?

99% OF THE WATER WE USE IS NOT USED FOR CONSUMPTION.

During a one hour rain, about 6.6 Gallons of water may be collected for each 1 square yard. This means that an average home roof can collect more than 660 gallons every hour! Imagine commercial buildings often have flat roofs, perfect for collecting rainwater.

Your Granby Composites reservoir may be designed to recover up to 100% of the rain water. A practical, ecofriendly solution.

Type of residential use	Proportion of the total cunsumption	Consumption of 350 liters per capita
External uses (pool, sprinkle, cleaning)	30%	105 liters
Washroom (18 to 28 liters per flush)	30%	105 liters
Washing (Clothes, dishes)	20%	70 liters
Bath and shower	9%	67 liters
Alimentation	1%	3 liters
TOTAL	100%	350 liters
